Across the South West of England, throughout the UK and right around the world we go back in time with a bucketful of Classic and Modern Blues, R&B, Jazz, a little Gospel Blues and just a side order of Soul.

Who are we?

Papa D Productions is a radio station production company specialising in 'Blues' as far back as 1929 and up to the present day, making all the stops along the way. Our company was created in 2012. We are a relatively small company (Just 7 people) which means, more than anything else, we offer you a personal service.

What does it cost?

The big question with a very short answer... To you: nothing! There are no hidden costs or catches. We generate our revenue by production sponsorship and commercial advertising in other media directions.

How does it work?

The copyrighted productions listed below are produced weekly in our own studios. The ones you choose are uploaded to you every Thursday using digital transfer software ('We Transfer') in digital MP3 format. All we need from you is an email address for us to transfer to. This service is non-contractual on your part. You may stop this service at any time.
